

Wireless Energy monitor

Biz4intellia provide wireless energy monitor hardwares OEM / ODM service for customers and developers launch their own monitors that are used for giving power consumption insights and saving energy usage.

Regular type contains

- 3 phases split core current transformers with WIFI communication module
- WiFi @ 2.4 GHz 802.11b/g/n transfer protocol
- Support TCP/UDP network transmission mode
- Support Simple Config/Airkiss/usrlink for fast networking configuration
- Provide custom made hardwares adapt for your user-friendly mobile app / software / display pannel for networking configuration

<i>PRODUCT DETAILS</i>	
Product name:	Wireless Energy monitor
Model No :	INT- WEMX01
Transfer Protocol :	Wifi
Certificate:	RoHS, ISO9000,ISO14000
Range :	30 meter to 100 meter
Country of origin :	China
Output :	Real time data

Description
<p>Range: 30 meter to 100 meter</p> <p>Protocol: WIFI</p> <p>Transmission rate:1s~30s Power supplyh: AC 110V~250V</p> <p>Add antenna for a stronger wifi signal; Add voltage measurement</p>
